# Letter From the President

Dear Potential Sponsor,

Hello, my name is Tabitha Sulaiman, a 4th year pursuing a Bachelors in Computer Science. I am honored to be serving as the President of the California State University Northridge (CSUN) Chapter of the National Society Of Black Engineers (NSBE) in the 2025-26 school year.

I am delighted to hear that you wish to support and donate to the CSUN Chapter of NSBE (CSUN-NSBE).

The National Society Of Black Engineers was founded due to the lack of support for young Black minds in the STEM/Engineering field. There was an alarmingly high number of dropouts amongst the Black freshmen within the Engineering department in college/universities. NSBE can be seen as the backbone for the majority of all of today's Black Engineers.

Despite challenges faced in recent years, CSUN-NSBE remains steadfast in its commitment to "increase the number of culturally responsible Black engineers, who excel academically, succeed professionally, and positively impact their communities".

Our primary objective is to revive our chapter and to create an environment catered to improving and increasing the number of Black engineers at CSUN by promoting academic, professional, and cultural success.

CSUN-NSBE eagerly seeks your partnership in our endeavors to create an inclusive environment where our members can succeed as Black students, engineers, and people. Your potential donations will play a pivotal role in supporting our members' academic and professional journeys. But it doesn't just start at the collegiate level, CSUN-NSBE plans to extend our efforts towards fostering the young Black minds from our local high school and middle schools in the LA/LA County.

Doing so, will help encourage Black students to be more confident and go into the engineering/STEM field. As you wish for more diversity and inclusion, Black students need to be aware of the support system dedicated to providing them with the appropriate resources needed in order to develop interest in the STEM/Engineering fields.

Similar to our go-getter culture here at CSUN, CSUN-NSBE is implementing leadership training, critical thinking, scholastic and professional zeal, all while using these skills to give back to our community. We understand that we are responsible for molding the next generation of innovators, consultants, programmers, doctors, etc.

Your potential sponsorship holds the power to help CSUN-NSBE improve the declining number of Black students in STEM/Engineering at Cal State Northridge.

We look forward to your generous contributions and continued support towards our mission. Together, we can make a significant difference in the lives of aspiring Black engineers and contribute to building a brighter future for our community and society at large.

Thank you for considering our sponsorship opportunities.

We look forward to the possibility of partnering with you.

Sincerely,

Tabitha Sulaiman

National Society Of Black Engineers  
President

# About NSBE

The National Society of Black Engineers (NSBE) is a 501(c)(3) nonprofit organization dedicated to the academic and professional success of Black engineering and technical students and professionals. NSBE offers its members leadership training, professional and academic development, mentoring opportunities, community service outreach programs, and scholarships.

**Mission:** To increase the number of culturally responsible Black engineers who excel academically, succeed professionally and positively impact the community.

**Organization:** NSBE is one of the largest student-managed associations in the country, comprised of more than 600 chapters nationwide and overseas. These chapters are geographically divided into six regions and are governed by a national executive board.

**Membership:** NSBE has more than 24,000 active collegiate and professional members. Its membership has also grown to include over 3,600 pre-college students in addition to chapters in Africa, Asia, Canada, the Caribbean, and Europe.

**Conferences:** NSBE annually hosts 18 regional conferences, a national leadership training institute, an international conference, and a national convention, which draws over **20,000 attendees.**

# About CSUN Chapter

Founded in 1977, CSUN-NSBE is the preeminent organization for Black students pursuing STEM degrees at our college. Additionally, CSUN-NSBE is a proud affiliate of Region Six which spans over 13 states and is home to over 30 chapters. With over 15 active members, CSUN-NSBE accounts for about 33 members in total. Through the support of the national organization, the College of Engineering and Computing at our college, and corporate sponsorship, CSUN-NSBE supports Black STEM students by helping them develop socially, academically, and professionally.

Electrical Engineering	5.0%
Construction Management	5.0%
Other Majors	10.0%

# About CSUN Chapter

## CSUN NSBE Chapter Members' Data

# Programs & Events

## National/Regional Events

### REGION 6 LEADERSHIP CONFERENCE

The Regional Leadership Conference (RLC) is targeted specifically towards Chapter and Professional leadership. Attendees receive three days of position-focused training, professional and leadership development, and an opportunity to network with peers throughout the region. The goal is that leaders leave RLC with the knowledge and tools to be successful as the Model Region and a connection to the NSBE mission. With these new skills, attendees will be able to take their chapters to the next level as they all strive to meet the new regional objectives.

### FALL REGIONAL CONFERENCE

The Fall Regional Conference (FRC) is our region's very own mini-Convention before the entire Society reconvenes for Annual Convention in the spring. During FRC, you can expect to see revolutionary programming and workshops that will focus on cultural development, financial literacy, leadership development, academic success and much more. Additionally, FRC will see opportunities for Region II's membership to further their professional careers at our Career Fair where they will be able to connect with companies seeking interns and full-time employees.

### ZONE SUMMITS

Zone summits allow our chapter to network and fellowship with other chapters within our zone to get to know each other as well as participate in activities and workshops catered to this specific zone.

### ANNUAL NATIONAL CONVENTION

The Annual Convention showcases Black students and professionals who have a passion for Science, Technology, Engineering and Math (STEM), who are high achievers in these fields and who are channeling their dedication to advance their communities and society at large. The convention usually 15,000 aspiring and practicing engineers, educators, representatives of more than 200 academic institutions, government agencies, corporations and nonprofit organizations.

The convention features high-profile speakers, panel discussions, dynamic workshops, networking sessions, community engagement events, technical and scientific competitions, hands-on engineering and science activities and the premier career fair geared toward Black people in STEM.

# Programs & Events

## Chapter Events

### GENERAL BODY MEETINGS

New and returning members will get the chance to learn more about NSBE, our mission for the new academic year, upcoming events, and how to become involved with the organization. They will also be able to meet and network with those in attendance.

### PROFESSIONAL DEVELOPMENT EVENTS

We offer our members different development workshops throughout the academic year which include resume reviews, practice interviews, networking events, and more. These events allow our members to hone their professional skills so that they can be successful after graduation.

### WEEKLY STUDY SESSIONS

Our chapter facilitates study halls for members three times a week. This promotes an environment for academic success, gives members a reliable location to study each week and an opportunity to collaborate with other NSBE members.

### RECRUITMENT EVENTS

Our chapter gives top companies a chance to come speak with our members to tell them about their company and what job opportunities they have available. Recruiters will be able to network with members to find potential new employees or interns.

### ACADEMIC EXCELLENCE WORKSHOPS

Academic excellence events help our members to not only succeed in their classes, but also acquire skills that will make them stand out in the job market. Some examples of these workshops are: note taking workshops, test prep workshops, Python workshops, 3D printing workshops and more.

### PRE-COLLEGIATE INITIATIVE EVENTS

Our chapter plans to host events catered to K-12 students in the community. These events are to help increase interest in going to college and pursuing STEM degrees in Black students and other minorities.

# Chapter Expenses

## Meetings, Workshops, Events

Food for 10 events: \$1,500

Pre-Collegiate Initiative Event supplies: \$200

**Total: \$1,700**

## Fall Regional Conference

Expected Participants: 15

Event Admission: \$3,100

Travel Airfare: \$7,008

Food: \$0

Housing: \$1,210

**Total: \$11,318**

## Annual National Convention

Expected Participants: 30

Event Admission: \$10,000

Travel Airfare: \$10,020

Food: \$5,000

Housing: \$10,000

**Total: \$35,020**

**Total: \$48,038**

# Tiers of Sponsorship

## DIAMOND

\$4500 and up

## PLATINUM

\$2500-\$4499

## GOLD

\$1000-\$2499

## SILVER

\$500-\$999

## BRONZE

\$250-\$499
